

## **Burns & McDonnell to Showcase Design-Build Innovative Solutions at IPPE 2025**

KANSAS CITY, Missouri — [Burns & McDonnell](#), a leading architecture, engineering and construction firm, is exhibiting at the International Production & Processing Expo (IPPE), taking place Jan. 28-30, 2025, at the Georgia World Congress Center in Atlanta.

IPPE, the world's largest annual poultry, meat and animal food industry event, attracts more than 30,000 industry professionals, offering unparalleled opportunities for networking, education and showcasing innovative solutions for the food production and processing sectors. Burns & McDonnell will join this community to share experience in food and beverage facility design and construction.

"We're excited to engage with industry leaders and explore innovative solutions that address the evolving challenges in food production," said [Brian Chrisman](#), protein market leader at Burns & McDonnell. "Our integrated design-build approach enables clients to enhance operational efficiency and meet sustainability goals through advanced engineering and construction solutions."

With a rich history dating back to 1898, Burns & McDonnell offers comprehensive project solutions for food and beverage manufacturing companies. These services include but are not limited to:

- Design-build project execution
- New product rollouts
- Process and packaging design
- Facility audits
- Food safety and defense
- Controls automation and systems integration
- Ammonia refrigeration systems
- Environmental services

The firm's multidisciplinary team of engineers, architects, construction professionals, planners, economists and scientists provide end-to-end services from engineering and procurement to construction and commissioning. This integrated approach delivers speed-to-market and tailored solutions to meet clients' specific needs.

IPPE attendees are invited to visit Burns & McDonnell at Booth C46181 to explore [customized solutions for the food and beverage industry](#).
