## **HARBEN Showcases Plant Maintenance Innovation at IPPE 2025 with the Industrial JET CART**

**ATLANTA, GA – January 8, 2025** – HARBEN Inc., renowned for its innovation in water jetting technology, is excited to announce its participation at the 2025 International Production & Processing Expo (IPPE). The event will feature HARBEN's flagship Industrial JET CART on January 28–30 at the Georgia World Congress Center in Atlanta, GA.

*"We're thrilled to bring this innovative solution to IPPE 2025,"* said Jennifer Pedersen, CEO. *"The Industrial JET CART demonstrates our commitment to providing efficient, safe, and reliable tools for our customers."*

The JET CART is purpose-built to address the critical needs of the meat production and processing industry:

- **Preventative Maintenance:** Reduces unscheduled downtime by keeping production lines clean and operational.
- **Superior Performance:** Delivers powerful cleaning at 4,000 PSI and 10 GPM, significantly outperforming standard pressure washers.
- **Built for Longevity:** Rugged design ensures dependable performance in the most demanding environments.
- **Safety Assurance:** Equipped with advanced dual safety features.

*"The JET CART is easy to use and move around. Great cost savings to us to be able to do this ourselves. GREAT INVESTMENT for our plant."* - **Nick Rockwell, JBS Grand Island, NE**

**Stop by Booth #B34060 at IPPE 2025 to learn more and  
see the HARBEN Industrial JET CART in action.**

### **About HARBEN**

HARBEN is a leading provider of high-performance water jetting systems for industrial and commercial applications. Known for its innovative design, durability, and exceptional performance, from preventative maintenance to cutting-edge solutions for operational efficiency, HARBEN remains committed to delivering reliability, safety, and superior customer service.
