FOR IMMEDIATE RELEASE

HARBEN Inc. will introduce the JET CART Plant Maintenance Innovation at the 2025 IPPE Show

ATLANTA, GA – January 13, 2025 – HARBEN, a leading provider of high-performance water jetting systems, is proud to debut as an exhibitor at the 2025 IPPE Show. The event will happen January 28–30, 2025, at the Georgia World Congress Center in Atlanta, GA.

As a trusted partner in industrial cleaning and maintenance solutions, HARBEN is excited to bring its innovative products, including the industry-leading HARBEN Industrial JET CART, to the meat production and processing sectors. This milestone highlights HARBEN's commitment to supporting industries that demand efficient, safe, and reliable cleaning and maintenance solutions.

"Joining the IPPE community and exhibiting at the 2025 IPPE Show marks an exciting step forward for HARBEN. Our water jetting solutions align perfectly with the needs of the meat production and processing industries, helping facilities maintain cleaner, safer, and more efficient operations. We look forward to engaging with industry leaders and demonstrating how HARBEN technology can optimize production environments."

Jennifer Pederson, CEO of HARBEN, Inc.

Introducing HARBEN

For over 44 years, HARBEN has been a trusted leader in high-performance water jetting systems. Known for their durability, innovation, and exceptional performance, HARBEN products are designed to address critical cleaning challenges in industrial and commercial applications.

Key offerings include:

The Industrial JET CART: A versatile, portable, and high-performing water jetting system operating at 4,000 PSI and 10 GPM, ideal for preventative maintenance and efficient cleaning in demanding environments.

Customizable Equipment: Tailored solutions designed to meet the specific cleaning needs of the meat production and processing industries.

Advanced Safety Features: Engineered with double safety systems to ensure reliable and secure operations.

Industries worldwide trust HARBEN's solutions to enhance productivity, minimize downtime, and ensure clean and safe production environments. With its new membership in IPPE and participation in the 2025 IPPE Show, HARBEN is expanding its reach and reinforcing its commitment to industry leadership.

Visit HARBEN at Booth #B34060 at the 2025 IPPE Show to learn about the company's innovative solutions and how they can transform your production facility.

About HARBEN

Founded in 1981, HARBEN specializes in high-performance water jetting systems for industrial and commercial applications. Focusing on innovative design, exceptional durability, and superior performance, HARBEN is committed to providing reliable and efficient tools that meet the toughest cleaning challenges. From preventative maintenance to safety-first solutions, HARBEN delivers products that industries rely on. For more information, visit www.harben.com.
