
ZetaSafe Showcases Innovative Food Safety Tracking and Monitoring Solutions for Food Safety at IPPE 2025

WHEN:

January 28th - 30th, 2025

WHERE:

Hall B - **Booth# B33051**
Georgia World Congress Center, Atlanta Georgia

WHAT:

Join us at our booth to see a live demonstration of ZetaSafe's cutting-edge mobile technology, designed to simplify the tracking and monitoring of daily food safety operations. Discover how our solutions help mitigate risks such as environmental pathogens, employee handling concerns, and food allergen exposure, ensuring safer and more efficient processes.

Leading industry specialists will be available for discussions about our latest compliance software solutions tailored for the North American market, as well as our approach to combining digital innovation and animal health expertise to better serve our customers.

WHO:

David Breen - US Account Executive, ✉ david.breen@micadsoftware.com

Brad Carmack - Project and Support Lead, ✉ brad.carmack@micad.tech

Chad Kellough - US Operations, ✉ chad.kellough@micad.tech

CONTACT:

For more information or to schedule a demo of the ZetaSafe Software, please email us at info@micad.tech or call us at **854-219-4475**.

COMPANY ABOUT:

MICAD is a global leader in compliance and safety software, offering innovative solutions to help businesses streamline operations and meet regulatory requirements. Serving industries like healthcare and food production, MICAD focuses on simplifying complex processes to enhance efficiency and reduce risks.

FEBRUARY WEBINAR
