AMTek Microwaves is an exhibitor at IPPE 2025

Cedar Rapids, Iowa - December 2024 - AMTek, a leader in industrial microwave systems for tempering, cooking and drying applications is exhibiting at the International Production & Processing Expo (IPPE) booth #BC46112 taking place Jan. 28-30, 2025, at the Georgia World Congress Center in Atlanta, Georgia USA

AMTek offers microwave continuous and batch ovens including custom control systems specific to a customer's application. We also offer control upgrades for all manufacturers of Industrial Microwave Systems and system accessories such as parts and conveyors. AMTek provides 24 hour equipment technical support 7 days a week. Technical support may be delivered for any of our technologies, ranging from basic functionality questions to equipment repair.

We are excited to engage with food processing industry leaders at IPPE and discuss how AMTek Microwave Systems can add efficiency and maintain food quality to process.

Tempering

- Uniform temperatures
- Yield improvements
- Little or no drip-loss
- Smaller space footprint

Cooking & Drying

- Volumetric heating
- Precise temperature control
- Customized for production and facility needs
- Multiple chamber option for precise control over results
